4. Slim Ice Maker
5. No Frost
6. Power Freeze Function
7. Reversible Door
8. LED Lighting
9. 10 Year Compressor Warranty¹

1

Choose the combination for your lifestyle

Flexible, modular design

Seamlessly integrate multiple modules to increase capacity and create the perfect fridge/freezer combo for you. Models can easily be mixed and matched², so you can enjoy the flexibility of a fridge that grows with you.

2

Express yourself with colour

Customisable door panels

Bring your personal style into the kitchen. Choose from 7 stunning colours in selected finishes including matte metal, high-gloss glass or frosted satin glass to build a fridge of your dreams.

3

Flexible storage optimised to your food

Convertible Freezer

Enjoy the ultimate in flexible storage. Easily convert your freezer into a fridge and optimise how you use the space whether you need more space for fresh food or frozen in different seasons and special occasions.

4

Ice made with less space

Slim Ice Maker

An Ice Maker that doesn't take up much space? Yes it's possible. Built into the door, the slim design frees up valuable storage space from shelves without going short on ice. It can store up to 5x the amount of ice⁴ it can make in each tray, dispensing ice cubes with a simple twist.

5

Frost-free food

No Frost

No Frost technology maximises the air circulation to help maintain a constant temperature and prevent the buildup of ice. It also reaches the target temperature fast while putting little demand on the cooling system for efficiency.

6

Fast, cool, freeze

Power Freeze function

At the touch of a button, Power Freeze delivers a fast blast of cold air into the freezer. Ideal for freezing or firming up food like ice cream, and making more ice.

7

Opens how you want

Reversible door

Simply choose the direction that your freezer opens to suit the layout of your home. The door can be reversed by changing the hinges over³ for the ultimate convenience.

SPECIFICATIONS
