

# T66TS61N0 FLEXINDUCTION COOKTOP WITH TWISTPAD® FIRE CONTROL

COOKING PASSION SINCE 1877

## Standalone FlexInduction cooktop with TwistPad® Fire control.

- ✓ Induction - With induction cooking, the heat is generated directly in the cookware for precise cooking that stops when power is off.
- ✓ FlexInduction - The FlexZone lets you place your pots and pans anywhere you want and heats them exactly where they stand.
- ✓ Extended FlexZone for even greater flexibility. Perfect for bigger pots and roaster.
- ✓ The TwistPad® Fire is a removable, magnetic, illuminated control knob that gives you precise, convenient control over all cooking zones. And to make things even easier, only the selectable functions are illuminated.
- ✓ PowerMove - The FlexZone is divided into three heating zones: boiling in front, simmering in the middle and warming in the rear.
- ✓ FryingSensor - The FryingSensor with 5 selectable temperature settings monitors the set temperature and holds it steady. So there's no more burning.
- ✓ PowerTransfer - When you reposition a pot on the extended FlexZone, your settings automatically follow the cookware.
- ✓ Stainless-steel flush-fitted trim
