Thinner Walls. More Space Inside.

SpaceMax™

1

Store more food with the spacious interior of SpaceMax™. Special high urethane insulation technology means that refrigerator walls are thinner. This results in more space inside the fridge without compromising efficiency compared with Samsung refrigerators without SpaceMax™ technology.

Ice Cubes in a Twist

Twist Ice Maker

2

A simple twist of the Ice Maker is all it takes to dispense a large quantity of ice cubes to stay cool in the warmer weather. Then when the weather starts to cool down, simply detach and remove the Ice Maker to make room for your winter essentials.

Preserve Freshness in your Food

All-Around Cooling

3

No matter where your food is stored in the fridge, it will be cooled. All-around Cooling technology continually checks the internal temperature and blows out cold air when needed. Multiple air vents on every shelf help ensure even distribution of cold air from corner to corner to help keep your food fresh.

Excellent addition to a variety of Kitchens
Modern, Minimal Design

The sleek design creates a clean, contemporary look to suit your kitchen interiors. Strikingly beautiful flat front doors paired with recessed handles introduce a minimalist aesthetic and an added level of design sophistication.
- 5**

See it All
LED Lighting

Samsung's sophisticated LED lighting brilliantly illuminates every corner of the fridge for more comfortable viewing. Find what you're looking for easily, even at night, without turning the kitchen light on.

Digital Inverter Technology.
10 Year Compressor Warranty¹

Enjoy efficiency and long-lasting performance. The Digital Inverter Compressor intelligently adjusts operating speed in response to cooling demand and is backed by a 10 years limited parts warranty to give you peace of mind
