

Key Features

1. All-around Cooling + Metal Cooling
2. Plumbed Water & Ice Dispenser
3. 20 year Compressor Warranty
4. SpaceMax™ Technology
5. Power Cool / Power Freeze
6. Vege Box
7. Sleek & Seamless Design
8. Deodorising Filter

1

Help preserve freshness in your food

All-Around Cooling + Metal Cooling

All-around Cooling technology continually checks the internal temperature and blows out cold air when needed, ensuring even distribution of cold air and even temperature from corner to corner to help keep your food fresh. Additionally, the Metal Cooling duct can help maintain a consistent internal temperature and restore heat loss quickly once the door is closed.

2

Enjoy refreshingly chilled water or ice, straight from the fridge door!

Plumbed Water & Ice Dispenser

With the convenience of a plumbed Ice & Water dispenser, you can enjoy chilled water on demand. Perfect for entertaining!

3

Digital Inverter Technology

20 Year Compressor Warranty¹

Enjoy efficiency and incredible performance. The Digital Inverter Compressor adjusts operating speed in response to cooling demand and is backed by a 20 years limited parts warranty to give you some added peace of mind¹.

4

Thinner Walls. More Space Inside.

SpaceMax™

Store more food with the spacious interior of SpaceMax™. High urethane insulation technology means that refrigerator walls are thinner. This results in more space inside the fridge².

5

Fast, cold, blast.**Power Cool / Power Freeze**

At the touch of a button, Power Cool blows intensely cold air into the fridge, so foods and drinks are chilled quickly. And Power Freeze delivers a fast blast of cold air into the freezer. It's great for freezing or firming up frozen food, like ice cream, and making more ice³.

6

Easily store more fruit and vegetables**Vege Box**

A large capacity Vege Box provides a convenient space to store a large amount of fresh fruit and vegetables. And because it's so big, it's much easier to find everything - all in one place and easy to get to.

7

Excellent addition to a variety of Kitchens**Sleek & Seamless Design**

The brushed stainless steel finish with flat doors and recessed handles adds a touch of elegance to your kitchen. Controls that are not frequently used are relocated to the inside of the fridge to give a seamless look.

8

Help maintain your food's flavor**Deodorising Filter⁴**

Help keep the air inside your fridge clean and preserve the original flavour and aroma of food. Built-in natural fiber Deodorising Filter can help remove some strong smells⁴ as the air is continually passed through activated carbon filter.

DISCLAIMERS

1 See Warranty Card or visit www.samsung.com.au for details

2 When compared with Samsung refrigerators without SpaceMax™ technology

3 Using Power Cool or Power Freeze increases power consumption.

4 For optimal deodorising performance, it is recommended that the Deodorising Filter is replaced every year.
