

finish	stainless steel with black glass
installation type	built in
size	60cm 58 litres net
functions	semi automatic 5 functions
warranty	2 years parts and labour

oven functions

fan forced

fan grill

static grill

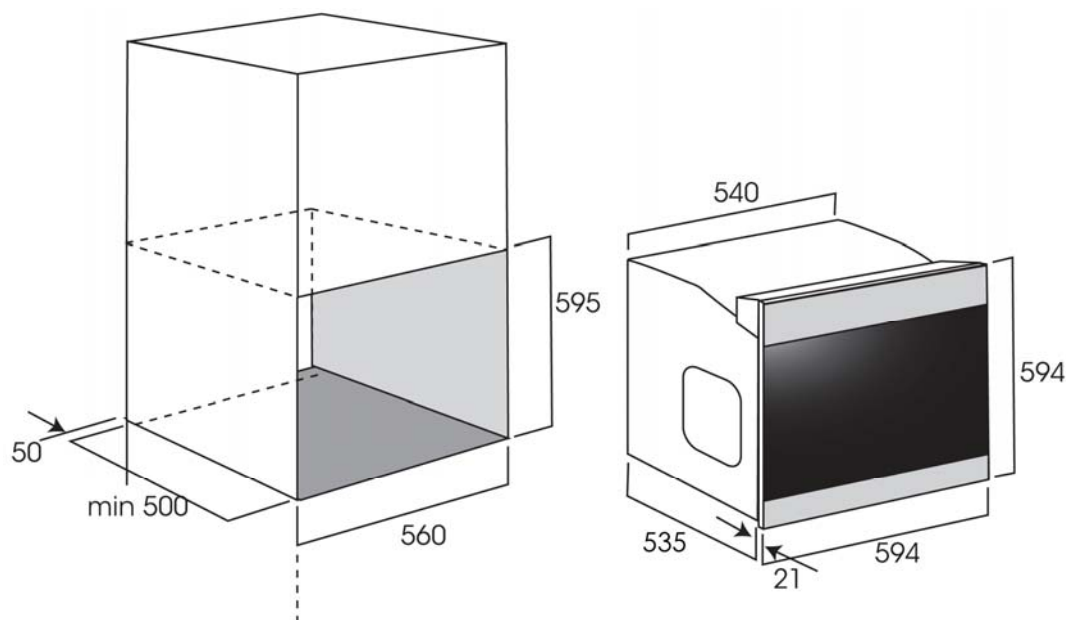

defrost

light

FEATURE	DETAILS / BENEFITS
super strength enamelling	during construction, the oven cavity is baked at 850°C to create super-strong enamel. This ultra-smooth surface is resilient to oxidation (rusting), pitting and harmful effects of cleaning agents and acidic food.
side opening door	for added convenience and access to the oven. This door is reversible - able to be positioned as either left or right opening.
removable door	when removed it allows more ergonomic access to the oven cavity and door for easier cleaning
double seal	above the oven cavity opening is a double seal. This seal prevents the hot, moist and particle-laden cooking air from escaping through the top vents and ensures only cleaner and cooler air is sent through the cavity between the inner and outer thermo-reflective glass door panes.
cooling fan	the air circulation is designed to ensure all external surfaces are safe to touch, the controls are never under duress and 'sweating' in adjacent cabinetry is eliminated.
semi automatic	the oven will automatically turn off after the duration of the timer is reached.

Technical Specifications

PLEASE NOTE

A dedicated 15amp wall socket is required for the direct plugging of oven.

Drawings are not to scale – they are to assist only.

product details	
finish	black glass with stainless steel
capacity	58 litres net
installation	built-in, underbench or wallmount
overall dimensions H x W x D	594 x 594 x 535
weight	29kg (packaged)
features	
controls	3 control knobs
temperature	50-250°C
timer	manual
timer function	semi automatic, 2hr countdown
door	2 layer glass, cool door, removable, reversible (left or right opening)
cavity	smooth black cavity, roof liner
shelving	wire racks with 5 shelf heights
safety	cooling fan
accessories	
chrome wire shelves	2
baking tray	yes
grill insert	yes
grill handle (wide grip)	yes

functions	
number of functions	5
oven light	yes
fan forced	yes
fan grill	yes
static grill	yes
half static grill	-
upper & lower element (convection)	-
fan assist	-
bottom element	-
bottom element & fan (bakers)	-
bottom element & grill	-
top element	-
defrost	yes
clean	-
boost	-

connection	
power requirements	240V, 50Hz, 9 amps
power plug & cable	1.85m, 15 amps

warranty	
parts and labour	24 months
