Additional key features & benefits

Internal space efficiency

SpaceMax™ technology uses minimal insulation, so the internal walls are thin to create more storage space inside without increasing external dimensions.

Chilled water or ice, straight from the fridge door!

With the convenience of a non-plumbed Ice & Water dispenser, you can enjoy refreshingly chilled water or cubed and crushed ice, straight from the fridge door. Great for entertaining!

Made for standard Australian kitchens**

Designed to fit under standard Australian kitchen bulkheads, it helps create a harmonious look for clean styling and an integrated, modern look

More ice with a slim in-door ice maker

A slim in-door ice maker does not mean there's less ice. With its great design, the ice maker is built into the door to give you extra shelf storage while making plenty of ice. The see-through cover lets you also see how much ice is left.

Chill fast with Power Cool and Power Freeze

Enjoy rapid cooling performance at the touch of a button. Power Cool and Power Freeze blows intensely cold air into the fridge or freezer to help quickly cool groceries or drinks or for making ice.

*Only available for participating schools. To participate, school must subscribe to app.

&^ Samsung account log-in and data network connection required. Data & subscription charges apply for certain apps. Apps & services are subject to change without notice.

** Fits a standard 1800mm cavity. Please review full fridge dimensions to determine suitability.
