

TAGLINE

THE SMALL BUT MIGHTY WORKHORSE

PRODUCT COPY

Acton II is the smallest speaker in the Marshall line-up, but don't let its size fool you. This dynamic compact speaker features three dedicated class D amplifiers that power its dual tweeters and subwoofer, for a sound that is nothing short of large. It produces a well balanced, powerful audio experience, yet can fit in the tiniest of spaces. With Bluetooth 5.0 technology you can play your music in glorious, stereo sound with no wires required.

Classic Marshall details such as a textured vinyl covering, salt & pepper fret and the iconic script logo adorn Acton II's sturdy wooden frame. Located on the front of the speaker is a brass plate, proudly etched with the establishment date of 1962 – a subtle nod to the brand's heritage and over 50 years of loud ■

UNIQUE SELLING POINTS

1. LARGER THAN LIFE SOUND

- Short:** Acton II is the smallest speaker in the Marshall line-up, but produces a sound that's nothing short of large.
