

Multi Floor Ultra Dry Steam

The Vapour M1 is a Floor Steamer with ultra dry steam made by a pressurised stainless steel boiler and featuring patented frontal steam jets. Works perfectly on any hard floor, wood included.

The Vapour M1 floor steam cleaner has a modern Italian design that is ideal for washing sealed hard surface floors and refreshing carpets and rugs, without the use of harsh chemical-based cleaners.

The heated steam softens and loosens dirt while the washable Microfibre pad lifts the dirt away.

The frontal steam jets gives extra steam power for stubborn dirt or to clean floor edges.

It is everything you need in a steam floor cleaner and more.

Features:

**Pressurised Steam
Stainless Steel Boiler**

Frontal Steam Jets

Refresh Carpet

Safe on Wood Floor

Floors Dry Fast

 **euroflex** | Home, Simplified.

Vapour M1: Technical Data

Water Capacity	600ml
Boiler Pressure	3.5 bars
Power	1200 W
Electrical Cable	7 metres
Usage before refilling	20 mins approx.

Accessories Included

Carpet Sledge
Microfibre Pad

2 x Washable
Microfibre Pads

Parking
Pad

Funnel

Measuring
Cup

Warranty

Vapour M1 Floor Steamer comes with a 2 year manufacturer's warranty.

euroflex vapour^{M1}

Euroflex products are technologically enhanced for superior performance

Boiler Technology:

The superior cleaning performance of Vapour M1 comes from its built-in stainless steel boiler that superheats water to generate a hot and drier steam, leaving floors hygienically clean, quick-to-dry and streak free.

The steam booster allows the ready-made steam to be released constantly, without any loss of steam pressure during cleaning.

Energy Efficient and Safe

Vapour M1 is thermostatically controlled to save power costs. A second thermostat along with the pressure release valve act as safety features to safe guard against excessive steam pressure.

Other Boiler Advantages:

Longer Life:

The boiler construction eliminates rust, corrosion and calcium build up for a longer product life.

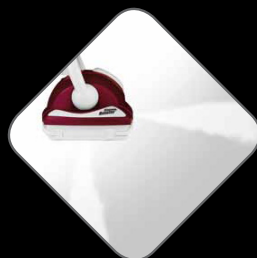

Ready - Made Steam:

Pre-made steam is stored and kept super hot ready for use.

Double Steam Jet Technology

The Bottom Jets continually emit steam to clean floor surfaces, while the Front Jets are used "on demand" to clean floor edges or used when extra steam power is needed for stubborn dirt.

Steam Booster Technology

Vapour M1's Steam Booster function ensures that steam is consistently released onto the floor pad with no loss of pressure, avoiding unexpected variability in steam output.
